My husband of 35 years and I have been in the forefront of Natural Health care since 1971. I was in 2004. My husband came to the Office for a general checkup. Though he was not ill he felt his overall health was doing well. As there was nothing too much to bolster, we only came a few times and then referred anyone who needed help to this Office. Ten a few months ago when his health began to deteriorate we again connected with the Office. We found that the staff as well as Dr. Kalidas are caring, professional, alert to the slightest need of the patient and this is not something easily found in this day. We feel fortunate to have this office in our lives and life. We recommend it and the doctor and staff for the highest quality of care and respect to receive. We will continue to visit this office and recommend it always.
