

09/11/2018

I have been a patient of Dr. Kiran Kalidas for almost 10 years. Dr. Kalidas is genuinely caring, knowledgeable and professional and I feel very much at ease talking to him and asking him questions about my health. He is like 'family' to me since the reason I introduced my husband, Norman to see him during the last 2 years.

I am 76 years old and have my aging problems but having Dr. Kalidas attend to me all these years, I can manage to do Zumba few times per week (1 hour non-stop) and also do weight-lifting. Dr. Kalidas you are an amazing doctor!

Your staff is very polite, courteous and welcoming and I do not have anything negative to say about them or your office. I must comment also on the nurses at the Ivy Suite:- Paula, Cynthia and Leola. They are very professional and friendly. They make me feel comfortable and I love talking to them.

A big 'THANK YOU' Dr. Kalidas and staff for your great services. Good Luck and Best Wishes to all of you!

Yours sincerely,
Paula
