I started with Dr K about a year ago. When I first came here I had very swollen ankles and was very inflamed. I was diagnosed with Crohn's disease and celiac disease about three years ago and wanted to heal my body the natural way. I've been consistently coming to him and would get blood work done. I've been taking the supplements now I've been instructed to. Today I have no inflammation in my ankles and my Crohn's has been under control. I used to also be extremely anemic and could not absorb any nutrients. Today I am slowly able to. I am still working on getting my adrenals back to normal and my nutrients to be where they should be. But ~~it~~ I have improved tremendously since working with Dr K. Over the past year!
