MY PERSONAL STORY OF WELLNESS

The mission of The Center for Natural & Integrative Medicine is to provide personal care. We focus on medicine as an art with treatments tailored to *each individual*. We appreciate your loyalty to us and would be grateful for a personal testimonial regarding your journey towards optimal health. You can also go to our website www.drkalidas.com and under the testimonial/review tab write a review on google.

I have had hypertension - fibromyalgia, polyarthritus, osteoporosis, Venus reflux, thyroiditis, hypothyroidism & lead toxicity. Dr. Kalidas ordered mineral testing which found lead toxicity. I underwent chelation therapy which reduced the count from 66 to 25. Currently I am on IV nutritional plus a mic shot. I am assuming it is to build up my immune system. I try very hard to take the 6 supplements every day. As you can see I have many maladies to overcome. Recently I discovered collagen from my daughter. While I was having an infusion I asked Paula to look it up for interactions with my supplements esp. my beta-blocker. She also asked Dr. Kalidas & he very kindly called me in the evening to tell me it was fine to take it. He is the kind of doctor that is never too busy to respond to questions & he really listens during my visits! I have no doubt I will be feeling better!
